EDITORIAL.

Sorry that the last 2 newsletters are a little late, but I am more or less back on the rails, and the newsletter is now in full swing again. If you have sent anything that you wanted included in recent newsletters, and it has not appeared, I am sorry, but I hope to catch up with one or two things in the next few editions.

Well folks it happened, thats right you've guest it ??? The Roswell autopsy video was shown to the press on the 5th of may 1995. What press conference I hear you say (Actually thats what I said when I received the following report...ED). The press conference was held at the Museum of London at 1pm and was attended by some well known faces :

George Wingfield, Rob Irving, Bob Kiviat (Fox/Paramount films), Philip Mantle, Michael Hesemann, Nick Pope MOD, Carlton Tv, BBC Radio 1, Daily Express, NBC - USA, Many Other Media, Reg Presley, Ray Santilli, Harry (Santilli's Accountant (I suppose he was there just to collect the entrance fee...!!!!), His Office staff, Researchers from Italy and Germany (What about the British Researchers.....????), John Holman, Kent Jefries - USA (Who ???).

Everyone was *frisked* and NO cameras or recorders, etc were allowed inside the theater. The film started with the following 'The film you are about to see is taken from 16 mm original films on 3 minute-long canisters and were purchased from the person who filmed it. All copyright is with Merlin Communications Ltd'.

(Description of Film)....

At a table in a well-equipped (operating) theater (Are wetalking about the same film here...I thought it was in a tent/barn...ED), two people in white outfits and hoods and visors over eyes (all-in-one-suits) were inspecting the being. A third person was observing from behind a glass screen in the wall of the theater : he/she (President Truman I presume...??...ED) was also wearing an outfit with a large glass visor. One of the surgeons looked closely at the body and was gesturing where he/she would be cutting and pulling the legs apart inspecting the vagina (Oh come off it, you've got to be kidding...ED).. The female being (I thought the body was covered in a white sheet and how do we know its female apart from the obvious...ED). The female being had no breasts. It had five fingers and a thumb (6 digets) on each hand and RP says he counted six toes also (I could only see 5). The ears were smaller than ours and located lower on the head than ours, level with the mouth. The head was larger (especially behind) and the eyes were larger, at least as big as golf balls. It had a small nose and small mouth, which was open. The body was very muscle-bound with very short, stocky legs and larger human-looking feet. The belly was very large and looked 8 months pregnant, which it was not (It must be the Martian beer that does it...ED).

The ears had the same spiral trough as ours but was smooth and featureless above, more simple and basic than ours. The surgeon cut from below the neck/chin down to the vagina and I believe a tee-line outwards across the lower stomach. The chest and stomach were exposed and the heart removed and placed into a tray with other substances from around the immediate area. The lungs were removed from behind into another tray. The camera was handheld, and would on occasion move in close, losing focus (Some cameraman if he cannot focus a camera properly...ED) in so doing. The flesh and attachments to the organs being removed were moving and responding to those actions in a very convincing manner - as if real. There were small amounts of fluids running down the side of the body when the body was opened and organs removed. The color of the liquid was dark and bloodlike. After the organs were cut out with a scalpel the surgeon cut a continuous line around the middle of the head and I think over the top, and peeled back the skin from the rear to front over the eyes, revealing the scalp. He took a saw and cut across the head and removed the brain with other material and placed it into another tray. Before the brain procedure started the surgeon removed a black lens layer from each eye, revealing white eyes just like ours under it (This sounds a bit like the 1960's series *U.F.O* to me...ED). The eyes had pupils like ours which were looking up into the head (as a deceased human would). The single black layer of material was slightly disc-shaped to fit over the eye pupil. It was as if a filter/contact lens had been fitted into the eye.

The right leg had a serious open wound, exposing the major bones from the lower part of the upper leg to the middle calf area. The surgeon moved the leg, inspecting the joint. A large clock was on the wall to the side of the table and the time I believe began at 10.30 and was seen again around 11.25. A wall-mounted telephone was visible, as were glass bottles and medical instruments. The body procedure looked very authentic and in my opinion would have been hard to fake (Unless a real head body was being used...ED), but perhaps not impossible with current techniques. At the end of the film, the lights came on and with no comment people were expected to leave. I was talking with Nick Pope (MOD) when a large group gathered at the rear of the theater around Ray Santilli and minders (What... You 've got to be joking...ED), who were already saying he will not answer questions and (that) the photographer is 80 odd (years old) and does not want the questions and exposures (It is no wonder the press did not report the meeting and nothing to my knowledge has been aired on Tv or Radio...ED). No other questions were answered and he was whisked out with the media and myself staying with him. I shook his hand earlier and he acknowledged me. I asked him as we all crowded around him 'Will you be seeing us in your office?' he said, 'Yes later'. A Tv interviewer said, 'How am I supposed to interview you without being given access to any other material?'.

When I was interviewed by BBC Radio 1 outside, they told me that BBC Tv had purchased a small amount of film and would be showing it next month (I assume sometime in June...ED). It is believed that a major US media company has made a bid. A fax bid was received on 3rd May from a group of Attorneys in Washington representing an unnamed client (possibly U.S Government) offering 1.8 million dollars for all materials to be returned to the USA. Mr. Takano (CA contact in Japan) faxed me in USA thanking me for my help putting them in touch with Santilli and said Santilli was going to fly to Hong Kong on.... May to show them the film.

(Well folks, there you have it... The second autopsy carried out on a dead Alien. Now the questions are many and I wonder if it is the same footage that a number of

other people claim to of seen, see previous newsletter. So, there must of been other autopsies carried out on other bodies recovered from the crashed saucer (If it was from either Roswell or Corona). The plot gets thicker and thicker and the 'best, was left for the media". I will leave you ponder over this, and I have the original transcript for those of you that are interested....ED).

PRESS :

Southampton Evening Echo : 22.4.95 :

MERLIN WORKS HIS MAGIC ON CROP CIRCLES SECRET :

This article interviewed a magician George Vernon who claims that you can learn the secret of crop circles - by playing a game he has invented (I have played a version of the game and just wished I could of worked out the secrets 'Of The Game' !!!!!).

Later this year the Bristol-based magician promises dramatic revelations which will finally reveal how those strange shapes come to appear in fields of corn all over the South (We already know don't we folks...Its little green men in their spaceships !!!!! and a number of fanatical cropies ? .. Cant wait to hear ... ED).

Portsmouth News : 24.4.95 :

UFO MYSTERIES EXPLAIN MEETING'S HIGH TURNOUT :

More than 250 UFO watchers swapped stories, books and videos as Havant hosted the biggest-ever UFO conference in the South.

Enthusiasts for crop circles, paranormal happenings and earth lights came to Warblington school from across the country for the day-long meeting.

They heard speakers explain the latest theories and recount new sightings, and snapped up rarely-available photos, books and magazines on UFOs.

Speaker Busty Taylor, and Andover-based crop circle expert, said: "we have found a material within the center of one crop circle that makes straw, chalk and dirt magnetic.

'We can't explain why, but analysts are still working on it. It was found in the center of a crop circle in Wiltshire.

'It appears that crops seem to undergo some kind of heat transference like being microwaved. That would be consistent with something hovering over the field.'

The conference, organized jointly by the Waterlooville-based Southern Paranormal Investigators and Southampton UFO Group, included talks by experts in other unexplained phenomena. There were also chances for members of the audience to tell their own experiences. Steve Gerrard, founder of the Southampton UFO Group, said:

"this is the first time there's been a conference of this size for years. It has gone so well, we might well do it again next year.

'Many of these books, magazines and videos are ones people can't usually get hold of. But the conference and the literature isn't producing answers so much as throwing up questions about the unexplained'.

Southampton Evening Echo : 27.4.95 :

CROP CIRCLE EXPERT HAILS 'SCIENTIFIC BREAKTHROUGH' :

This article consists of an interview with Lucy Pringle, crop circle researcher extraordinary ? Following the burial of sealed bottles of water inside a number of circles, and after having them examined against control samples outside of the formations, something exciting has happened (Don't tell me ... someone left a note out asking for two pints today thankyou...!!). There was a significant difference in the frequencies of water left inside the circles and the control samples... WOW !!!!! (ED...)

Portsmouth News : 1.5.95 :

SEEKING OUT THE TRUTH BEHIND UFOs :

This was a whole page article concerning the Conference on April the 22nd and really was not much different than the earlier article. This article included an interview with Crop Circle photographer Steve Alexander and an interview with Bob Schindler of the Southern Paranormal Investigations group.

RADIO :

BBC Radio Solent : 22.4.95 :

The recording was done during the UFO Conference at Warblington Secondary School on the 22nd April. I myself was interviewed along with Roy Lake of the London UFO Studies group. Peter White carried out the interview and as ever was very dismissive of little green men and Alien Abductions/examinations. I feel the interview went okay, and I must admit, a couple of local people that were not aware of the event turned up after the broadcast. It was a good plug for the subject, and as I have been interviewed by Peter before, he has not changed in his ideas and views.

THE X-FILES ON YOUR HOME COMPUTER :

If you have a computer that has a modem, then why not try and connect to the X-Files and talk to the producer, the stars and find out more about the program. I have not tried the following as my computer hasn't got a modem connection.

(X-Files on Internet - Connect as follows : usenet.tv.x-files)

TELEVISION :

Channel Four : 17.4.95 :

This item featured Roy Lake of the London UFO Studies group, and I must admit that I felt sorry for him. The interview lasted about 5 minutes and there was a look at the X-Files and Roy talked about a case he was dealing with and his own sighting. But the thing that struck me was the badge on his jacket. If it was any bigger, Roy might as well of stood behind a board with his name on it. But, this was a good thing for Roy, and a good thing for Ufology in general. Keep up the good work Roy.

Arthur C. Clarke's Mysterious Universe : 26.4.95 :

This was an interesting program for all you croppies out there. Mixed with the hoaxers and their ideas, with serious investigators, the program covered the subject very well. The program lasted 30 minutes with interviews from the scientific community to the people that claim to of seen circles forming. Arthur C. Clark didnt knock the subject into touch completely, but then again he did not come up with an answer. He was very cagey and sat on the fence when finally summing up the subject. Worth a look at if you missed it.....

THE PORTSMOUTH UFO CONFERENCE 22 APRIL 1995.

After a year in planning the conference finally arrived and we had a great day but without one or two problems. I arrived at 8.30am to find Bob and his group at work setting up the chairs (Which were supposed to of been put out the day before by the school !). When we finished this, we set up the PA system and helped the stall holders with the tables etc and the setting up. The caterers arrived and the clock crept towards 10am. Then we suddenly realized that we had no one in the lighting box to operate spot lights etc. (2nd problem of the day !). But we managed to get through the day without too many problems. The ticket sales were going well, and when the doors closed at 10am, we had around 250 delegates in the hall. It was at this point that we realized that our first speaker had not arrived !. With only five minutes before the start, Busty Taylor arrived and the first lecture got under way. Busty gave a great presentation, and was well received by the audience. The next speaker, Roy Lake, then took the stage and invited members of the audience to relate their experiences and sightings and we heard one or two very good cases, that need further follow-ups. We

stopped for lunch at 12.30 and it was time to mingle and to chat. (By this time, I had seen exactly zero minutes of the first 2 lectures).

After lunch, it was time for Gordon Millington to take to the stage and present his very interesting lecture, which was received with great enthusiasm by the audience. The final speaker of the day was Malcolm Terry and again, he gave a very interesting lecture which the audience appeared to appreciate. By now, we had around 30 minutes to spare, and Myself, Roy Lake, Busty Taylor and Malcolm Terry took to the stage for 20 minutes of questions and answers. As the clock struck 4pm, we closed the conference and proceeded to clear up. Members of both Southern Paranormal Investigations Group, SUFOG and Lionel Beer retired to the local hostelry to talk about the day and to relax. I have had many people contact me, and tell me what a great day they had and were wondering when the next conference will be held. Well folks, we may well hold a 2 day conference in 1996 around April again and we hope to have different speakers in attendance over the two days. We may well hold the event in the same location, or move it to Southampton, where there are one or two good hotels, and there is always Southampton University which has a lecture theater. If anyone has any ideas such as speakers, locations etc, then why don't you drop me a line. We recorded the whole day on video and audio, and details are enclosed on how to obtain the 4hr video for £10 + £1.50 pp and audio tapes at £5 plus £0.75 pp.

FIRST CROP CIRCLE REPORT OF 1995.

Well folks, the first crop circle formations of 1995 have appeared in England, around the end of April. The formation has been found at Eccleston, near Chorley in Lancashire and consists of 5 circles graded in size (A thought bubble) and a single circle about half a mile away. First reports are that both formations are very rough and has been found in a crop of Oil Seed Rape. This formation was closely followed by the following 8 formation sights :

1. Overton Hill, Wiltshire : Formation like a childs handheld windmill on a stick.
2. Southfield, Wiltshire : One large circle and a smaller one.
3. Clay Hill, Near Warminster.
4. Kimpton nr Thruxton, Hampshire.
5. West Overton, Wiltshire : A Yin - Yang design.
6. Newhaven, Sussex : Double - Ringed circle in oil seed rape.
7. Danebury Hill, Wiltshire : A circle with standing crescent shape.
8. Kingsclere, Nr Basingstoke, Hampshire : Ringed circle connected to another circle with two standing rings in it. Last circle in formation has a large crescent attached to it.

From my correspondent in the *Field* (Sorry !!), it appears that someone put a note through the letter box of the Barge public house, with O/S map references on it, to lead people to one of the formations. It appears that no one had found it earlier, so the possible *creator* gave a helping hand....!

LETTERS FROM THE READERS.

This is a new section to the newsletter and is a chance for people to air their views, blow off a little steam and say the things they want to say. I will print anything that you send to me (As long as I do not end up in prison or court...!), the editor will reserve the right to edit names etc.

" WILL THE REAL CREATOR PLEASE STAND UP ! "

Like all seekers out there, I am always keen to hear of the latest theories put forward concerning human creation and the connection with extra-terrestrials. I have just finished reading about the scientific experiments carried out by the "*Elohim!*", who apparently live only 1 light year away (Earth astronomers wake up please). I was warming quite nicely to their account of creation with their biblical explanations thrown in. However pretty soon the old alarm bells started ringing and it came to pass that my mental screen lit up with "*Nice little earner*". I mean okay the governor's rep has got to eat, but stipulating all believers will give all their money to him instead of their offspring, on top of 1% of their wages even is a bit heavy. No spam parties for this guy. Still, he needs a few reddies to build the landing pad and presumably the swimming pool is for the *Elohim's* pet goldfish. Ok just don't think of the bread, just remember when the time comes for your relatives to decorate the scenery with your ashes to remember to save your forehead bone to send to the guide of guides (registered post), so that cells from this will secure your recreation. By the way, to save all that messy business of relatives contesting your will, bestow it while your still alive. Neat eh !

Oh well, back to the drawing board.

Brian Walker (Southampton).
